

Staff and students At a glance

our staff coming from outside the UK. We have staff from 62 different countries around the world.

Science at the ICR is structured into eight research divisions.

Research Division	Head of Division
Breast Cancer Research	Professor Andrew Tutt
Cancer Biology	Professor Jonathon Pines
Cancer Therapeutics	Dr Olivia Rossanese
Clinical Studies	Professor Johann de Bono
Genetics and Epidemiology	Professor Richard Houlston
Molecular Pathology	Professor Janet Shipley
Radiotherapy and Imaging	Professor Kevin Harrington
Structural Biology	Professor Laurence Pearl

Staff

The Institute of Cancer Research, London, employed 1,155 staff at the beginning of the 2022/23 academic year.

The ICR is based at two locations in London – at Sutton and Chelsea. Around 63 per cent of staff work in Sutton and 36 per cent in Chelsea, with 1% not site based.

In 2022/23 we employed 49 scientific officers – technical staff who support research activities and work primarily in laboratories.

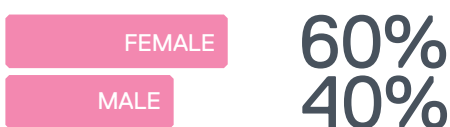

Almost 73 per cent of staff members were employed in research and 27 per cent were employed in professional services.

Leadership Team

The ICR's leadership team consists of Professor Kristian Helin, Chief Executive Officer, Gordon Stewart, Chief Operating Officer, and Professor Clare Isacke, Dean of Academic and Research Affairs.

We employed 28 clinical academic staff, who, as medically trained professionals, combine research with clinical duties.

Some 60 per cent of staff at the The Institute of Cancer Research (ICR) are female, and 40 per cent male. We are a diverse organisation, with 33 per cent of

In 2022/23, we employed 73 scientific academic staff, comprising academic and staff scientist roles. Of these, 58 were Team Leaders.

Specialist staff – including bioinformaticians, statisticians and epidemiologists – accounted for around 13 staff, working across research divisions.

Professional services at the ICR

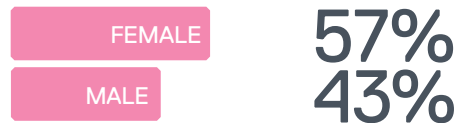

The ICR's professional services have nine main functions.

Function	Lead
Institute Secretariat	Magda North
Academic Services	Dr Barbara Pittam
Communications and Policy	Richard Hoey
Development	Richard Hoey (Interim)
Business and Innovation Office	Dr Jon Wilkinson (Interim)
Finance	Paul Norris
Human Resources	Carol Ford
Digital Services	Dr Jonathan Monk
Facilities	Simon Francis

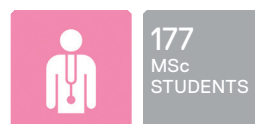

Students

The ICR provides high-quality postgraduate courses for scientists and clinicians. We offer fully funded PhD studentships, two-year MD(Res) degrees for clinicians and an MSc in Oncology offered as a day-release course for clinicians.

57 per cent of postdoctoral researchers are female and 43 per cent are male.

Over the 2021/22 academic year, there were 264 people registered on research degrees with the ICR – 203 PhD/MPhil students and 61 MD(Res) students. In 2021/22, the ICR recruited 41 new fully funded PhD students.

Over the 2021/22 academic year, we had 177 registered and active MSc students.
